Re: Implementation of SPCC Plan
Docket No.: OH-II-75-06

Dear Mr. Jarrett:

An audit of our files has revealed that the last correspondence concerning the implementation of the SPCC Plan at your facility was dated November 14, 1975. It would seem appropriate, therefore, to update our files at this time.

Kindly send me, within ten days, a report detailing the progress which has been made in the implementation of the Plan and the work of Wehran Engineering since November, 1975. I sincerely hope that this case can be terminated in the near future. EPA took the unprecedented step of allowing an open-ended implementation schedule because it relied on the good faith of L. E. Carpenter. I would expect that substantial concrete advances have been made at your facility since November.

Very truly yours,

Henry Gluckstern
Attorney
Enforcement Division
